

[Т О Л Ь К О] свежие решения

Verysell Group was established in 1990 and since that the company has been delivering leading-edge information technologies to enable its customers' success. Verysell keeps strong positions in:

- IT consulting and systems integration
- Business processes automation
- Management consulting
- Application development and implementation
- Distribution of high-tech products

Three business units constitute Verysell Group: Verysell Projects, Verysell IT Services, and Verysell Distribution.

Verysell Projects

- IT consulting and Systems integration
- General contracting
- Project financing

Verysell IT Services

- Management consulting and ERP systems
- Industrial automation
- Assets management

Verysell Distribution

- Project-based distribution
- Product-based distribution

Business units are focused on the corresponding areas where they possess deep professional knowledge, specific practical skills and competences. Verysell Group blends and delivers consulting services, information systems and hi-tech computer-related products to enhance its customers' competitive advantages. Our goal is to deliver real and measurable results for the customers.

Our main values:

- Clearly defined business development strategy focused on the most promising segments of the Russian and CIS IT market
- Solid history of cooperation with leading global vendors of high-tech equipment
- Wide and reliable network of partners spanning major regions in Russia and the CIS
- Philosophy that holds paramount attention given to each and every client, which ensures long-term productive relationships
- Team of highly qualified professional consultants with solid industry experience and expertise
